

## **AvePoint Delivers Full-Spectrum Microsoft SharePoint Data Protection with DocAve Backup and Recovery**

### ***DocAve Backup and Recovery Represents Industry's First Software Designed for Complete SharePoint Platform Protection with Granular, Full-Fidelity, Item-Level Restore***

JERSEY CITY, NJ, March 25, 2008 — AvePoint, the leading provider of SharePoint management and data-protection solutions, today announced the release of DocAve Backup and Recovery, a fully integrated software module providing item through platform-level backup and restoration capabilities. This innovation represents the industry's first ever full-fidelity granular data protection software capable of farm-level SharePoint disaster recovery.

The new Backup and Recovery module combines the powerful capacities of AvePoint's Granular Backup and Restore and Platform Recovery technologies, empowering Administrators of Microsoft Office SharePoint Server 2007 (MOSS) to protect both the content and the infrastructure of their SharePoint deployment with a single solution.

"We are very excited to offer the industry's first fully-integrated solution that protects all SharePoint 2007 data and infrastructure," said Tianyi Jiang, AvePoint's Chief Operating Officer. "This product release aligns with AvePoint's continuing commitment to provide the world's most innovative and robust SharePoint solutions on the market."

### **Swift, Painless Platform Recovery**

DocAve Backup and Recovery protects all components in a SharePoint environment, from farm-level components down to individual content items. Following a disaster, a speedy and complete recovery is top priority. DocAve's Backup and Recovery module dramatically reduces the manual steps needed to restore SharePoint components or farms by providing full-spectrum recovery of content databases, search and index servers, and front-end server/file systems. With automated SQL log backups fully integrated into the backup process, dynamic "point-in-time" recoveries are easy and fast. DocAve's Backup and Recovery ensures even the most stringent SLA requirements are satisfied by delivering minimal downtime and data loss regardless of farm configuration complexity or component architecture.

### **Enterprise-Strength, Granular Protection**

Backup and Recovery safeguards all content stored in a SharePoint repository, including sites, sub-sites, lists, document libraries and individual items. With DocAve Backup and Recovery, nothing is left behind and no resources are wasted. Restoration is equally flexible and robust, with on-demand granular restores applied directly to a live production environment while all metadata, securities, and version histories are maintained. With DocAve Backup and Recovery, business and resource disruptions are a thing of the past.

### **Unlimited Backup Plan Building and Truly Centralized Administration**

Anchoring the new Backup and Recovery module and the entire DocAve software platform is AvePoint's award-winning "SharePoint-centric" user interface. This easy to use web-based interface centralizes all backup, retention, monitoring, and recovery tasks and provides for flexible scheduling, storage, and retention policy generation. The Smart Backup Plan Builder puts control of tiered backup routines at the Administrator's fingertips, allowing for unlimited plan building and up to six unique schedules per plan. Full, Incremental, and Differential backup options and multiple inter-and intra-day backup scheduling enables effective 24x7 production support. With instant email-based reporting and multi-language support, administration is truly centralized and ready for global deployment of Microsoft SharePoint products and technologies.

### **Pricing and Availability**

The new DocAve Backup and Recovery module is available for purchase through AvePoint's global Sales network. Visit <http://www.avepoint.com/products/sharepoint-backup/> for more information and to purchase.

Fully-enabled trial versions of DocAve Backup and Recovery and the entire DocAve solutions suite are available for download at [www.avepoint.com/download](http://www.avepoint.com/download).

.....
