

## AvePoint's DocAve Software Platform Fully Supports Microsoft Office 365

### **DocAve provides a single platform for managing on-premises and cloud-based deployments of SharePoint Products and Technologies**

*Jersey City, NJ — July 19, 2011* — AvePoint, a proven leader in providing [lifecycle management software](#) solutions for Microsoft SharePoint, today announced the general availability of the DocAve Software Platform's full support of Microsoft Office 365, which includes SharePoint Online. DocAve enables seamless migration to online SharePoint environments, accommodating content from 14 different legacy sources as well as hybrid management of on-premise and cloud SharePoint environments through a single software platform.

"Office 365 offers an unprecedented opportunity for organizations of any size to unleash tremendous value from SharePoint and the rest of Microsoft's productivity suite while increasing scalability and minimizing total cost of ownership," said Dr. Tianyi (TJ) Jiang, Co-Chief Executive Officer of AvePoint. "AvePoint has led numerous deep-dive sessions and held extensive customer meetings to understand what the cloud means to businesses today as well as the future. Supported by our expansive research and development team and global network of channel partners, AvePoint enables customers to execute the cloud strategy that best meets their needs."

As a Gold Certified ISV and Portals and Collaboration partner, AvePoint has been working with Microsoft very closely throughout the Technology Adoption Program and Beta release for Office 365 to ensure organizations can seamlessly manage both existing on-premises and cloud environments as they continue to incorporate cloud computing technologies such as Office 365 into their repertoire. [DocAve for SharePoint Online](#) provides organizations with a comprehensive solution for migrating enterprise content to SharePoint Online and managing hybrid SharePoint deployments with unmatched scalability and reliability.

In addition to supporting migration to SharePoint Online from previous versions of SharePoint as well as a variety of legacy platforms, DocAve employs features to minimize business disruption and reduce risks associated with migration. Publishing content directly from on-premise staging farms to the cloud, DocAve enables global scalability, controls bandwidth utilization, and ensures network resources remain fully optimized. All SharePoint Online content can be effectively managed and replicated between sites and libraries with DocAve.

"As a past recipient of the Heartland and Central Area Partner of the year for Business Productivity Online Suite and global Microsoft Partner of the Year for Online Services, we're proud to be a key Systems Integration partner for Microsoft Office 365 in North America," said Todd Golden, Director of Alliances at [PointBridge](#). "By joining forces with AvePoint, we can continue to live up to our standard of providing enterprise clients with the collaborative work environments they require for connecting people, processes, and information using both on-premise SharePoint and SharePoint Online environments."

"We pride ourselves on being a top Microsoft Office 365 Systems Integration partner in EMEA," said Danny Burlage, CTO and Co-Founder at [Wortell](#). "Working with AvePoint, we look to truly bring enterprise-level capabilities already utilized in on-premise SharePoint environments to SharePoint Online in Office 365. Together, AvePoint and Wortell will aim to revolutionize end-users' SharePoint Online experiences throughout the enterprise."

## SharePoint MVPs Discuss Office 365 Strategies

On Tuesday, August 2 at 11am EST, AvePoint will present a webinar entitled “Office 365: Does It Work In a Leap Year?” Led by AvePoint Enterprise Architect Jeremy Thake and Enterprise Trainer and Evangelist Randy Williams, both SharePoint MVPs, the webinar will examine the principles and future of the cloud and Office 365. Thake and Williams will also present different cloud strategies suitable for a wide variety of enterprises.
