

AvePoint and DocPoint Solutions Forge Partnership

New partnership will streamline integration of AvePoint's SharePoint infrastructure management products into DocPoint Solutions' ECM and Records Management offerings

Jersey City, N.J. and Fulton, M.D. – August 17, 2009 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft® SharePoint®, today announced a new partnership with DocPoint Solutions, provider of SharePoint consulting, training, and deployment services throughout the mid-Atlantic United States. This new partnership formalizes an already successful business relationship that fortifies DocPoint Solution's services with the offering of AvePoint's SharePoint infrastructure management software. AvePoint's best-of-breed software for SharePoint backup and recovery, compliance, administration, archiving, replication, reporting, and migration will serve to complement DocPoint Solutions.

"We are very excited to partner with DocPoint Solutions", said Tianyi (TJ) Jiang, COO of AvePoint. "DocPoint is one of the most highly regarded SharePoint consultancies in the mid-Atlantic region – particularly among agencies of the U.S. government - and we are thrilled for the opportunity to establish a formal working relationship with such a market leader. AvePoint's back-end management products and DocPoint's ECM and records management solutions are a natural fit, and together will deliver the comprehensive solution array today's competitive organizations demand."

AvePoint's flagship product, the award-winning DocAve Software Platform is a full-spectrum infrastructure management and protection solution for Microsoft SharePoint Products and Technologies. With a unified, browser-based user interface and a fully-distributed architecture, DocAve offers 15 independently-deployable modules for backup and recovery, administration, replication, deployment management, compliance, eDiscovery, archiving, reporting, and migration.

"Partnering with AvePoint puts us a step ahead in the market, as their best-in-class software aligns perfectly with our ECM solutions for infrastructure management and backup", said Bob Dickerson, VP of DocPoint Solutions. "As a result of this partnership, our clients will be able to benefit from AvePoint's complete solution suite."

DocPoint Solutions provides a full range of consultative services, support, and software for enterprise content management, with a specific focus on providing Microsoft SharePoint to organizations looking to expand employee collaboration efforts and increase information exchange across the enterprise. The company primarily provides its services to government agencies, nonprofits, and corporations.
