

AvePoint[®] Expands Operations in Singapore

New facilities to serve as full-service sales and support resource for regional organizations seeking world's preeminent SharePoint infrastructure management solutions

Jersey City, NJ, January 29, 2009 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft[®] SharePoint[®], today announced the opening of a new sales and technical support office in the Republic of Singapore. As organizations in the region increasingly turn to SharePoint to improve business productivity – and AvePoint's award-winning DocAve Software Platform to manage and protect these SharePoint deployments – this strategic expansion will serve to support AvePoint's ongoing commitment to deliver its products and technical services to customers throughout the Asia Pacific (APAC) region.

"AvePoint has for many years been managing and protecting the SharePoint deployments of companies throughout Singapore, and we are very excited to continue expanding our presence in the region", said Dr. Tianyi Jiang, COO of AvePoint. "Singapore is a dynamic economic and cultural engine, and our new sales and support office will help us better provide the technologies and services the region's organizations need to achieve success."

New Office to Serve as Sales and Support Resource for Region's Customers and Partners

AvePoint's new Singapore office serves as the headquarters for a team of professional inside sales, enterprise sales, and technical support staff – all dedicated exclusively to serving regional clients and partners. Commensurate with AvePoint's commitment to build mutually-beneficial professional relationships with complimentary vendors and professionals, the Singapore office also serves as the company's regional Partner & Certified Re-Seller Resource Center, where affiliates can receive training, collaborate in joint marketing initiatives, and assist in the development of future products and offerings.
