

## **AvePoint<sup>®</sup> Announces New DocAve Suite Pricing for WSSv3 Customers until December 31, 2009**

***DocAve Suite for WSSv3 provides organizations with all of DocAve's best-of-breed data protection, administration, compliance, deployment management, and reporting modules for a single, per server price***

Jersey City, N.J. – October 12, 2009 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft<sup>®</sup> SharePoint<sup>®</sup>, today announced the release of new suite pricing for its DocAve Software Platform available to organizations running Windows SharePoint Services v3 (WSSv3). This new pricing – available until December 31, 2009 – provides WSSv3 customers with all of the award-winning DocAve modules for a one low per server price. Now organizations running WSSv3 can easily and cost-effectively ensure that their SharePoint environments are properly managed and protected. This offer has been made available by AvePoint to organizations running WSSv3 with three (3) servers or less, and allows these organizations to take full advantage of DocAve's powerful tools for SharePoint item-through-platform level backup and recovery, administration, auditing, deployment management, compliance, archiving, and reporting.

"We are very proud to offer DocAve to WSS users at this new, bundled price point", said Dr. Tianyi (TJ) Jiang, AvePoint COO. "Organizations with smaller SharePoint deployments still need to efficiently manage, protect, and optimize their environments, and this new offering provides a cost-effective way for them to utilize the most powerful SharePoint infrastructure management tools on the market."

The new DocAve Suite for WSSv3 is priced at USD 995/server. The DocAve Suite for WSSv3 ships with the full array of SharePoint management, protection, and reporting modules available in the standard DocAve Software Platform. DocAve Migrator – which delivers full fidelity migration to SharePoint from a wide variety of legacy sources – is not included in the basic suite pricing, but is available for additional purchase for those requiring this powerful tool. The DocAve Suite for WSSv3 includes the following DocAve modules:

-  DocAve Backup and Recovery
-  DocAve High Availability
-  DocAve SiteBin
-  DocAve SharePoint Administrator
-  DocAve Archiver
-  DocAve Compliance Vault

- ▲ DocAve eDiscovery
- ▲ DocAve Auditor
- ▲ DocAve Replicator
- ▲ DocAve Content Manager
- ▲ DocAve Deployment Manager
- ▲ DocAve Report Center

“AvePoint’s new bundle pricing for WSS deployments is great news for the SharePoint community”, commented Bob Fox, Microsoft SharePoint MVP and co-founder of the International SharePoint Professionals Association. “Organizations that are using Windows SharePoint Services 3.0 need to have robust backup, administration, archiving, and deployment management strategies in place in order to scale out their environments with confidence. AvePoint’s new DocAve for WSS Suite does just that, by delivering a comprehensive SharePoint infrastructure management solution at a great price point.”

### **No Additional Installation Required**

AvePoint provides a free, full-enabled 30-day trial download of the DocAve Software Platform on its website at [www.avepoint.com/download](http://www.avepoint.com/download). After downloading and installing the trial version, organizations interested in purchasing the specially-priced DocAve Suite for WSSv3 need not perform a separate install. Following purchase, a license key will be sent to the customer which enables the entire DocAve for WSSv3 Suite.

### **Pro-Rated Pricing for Existing DocAve Customers**

While the DocAve Suite for WSSv3 is only offered to customers with environments of three servers or less, the standard DocAve Software Platform remains available for those organizations with WSSv3 environments larger than three servers. The DocAve Software Platform supports all SharePoint environments, including Microsoft Office SharePoint Server 2007 (MOSS 2007), SharePoint Portal Services 2003 (SPS 2003), and Windows SharePoint Services v2 and v3.

Existing DocAve customers with WSSv3 environments who wish to upgrade to the DocAve Suite for WSSv3 are eligible for special upgrade pricing, which takes into account the investments they have already made in AvePoint products. In most cases, this will be a free upgrade, enabling the full suite of DocAve products in addition to those already purchased. Such organizations should contact their AvePoint Sales Representative to receive upgrade information.

To learn more about the DocAve Software Platform, please visit the AvePoint website at [www.AvePoint.com](http://www.AvePoint.com). To speak to an AvePoint Sales Professional about purchasing either the standard DocAve Software Platform or the specially-priced DocAve Suite for WSSv3, please call 1-800-661-6588. (Outside North America, please call +1-201-793-1111, or your local AvePoint office or AvePoint partner)
