

New AvePoint Integration with EMC Offers Customers Complete SharePoint Content Lifecycle Management Solution

Enables organizations to fully utilize the AvePoint platform to address their business objectives

Las Vegas, Nev. — May 11, 2011 — AvePoint, a proven leader in providing infrastructure management software solutions for Microsoft SharePoint, today announced new integration with EMC[®] Centera[®] and EMC[®] Atmos[®] from the show floor at EMC World in Las Vegas, Nevada. The new integration delivers customers a comprehensive SharePoint lifecycle management solution.

AvePoint, an EMC Velocity ISV Program Partner, worked with EMC to integrate its flagship SharePoint infrastructure management solution—DocAve Software Platform—with EMC Centera and EMC Atmos. This enables companies to complete their enterprise content management and collaboration initiatives by utilizing their investments in EMC information infrastructure while ensuring its enterprise-wide content is accessible, protected, and managed with DocAve.

“Organizations have a great need for the complete SharePoint content lifecycle management solution from AvePoint and EMC,” said George Petrou, Vice President of Product Management, AvePoint. “EMC is renowned for storage platforms that help companies increase scalability and slash storage costs.

“Working with AvePoint enables our customers to take advantage of our solutions for tiered and cloud storage,” said Jon Martin, Sr. Director, Product Management and Marketing, EMC Cloud Infrastructure Group. “The integrated solution from EMC and AvePoint enables organizations to exclusively focus on utilizing SharePoint to solve their critical business challenges.”

Visit AvePoint at EMC World for SharePoint Proven Practices

For more information on how DocAve enables organizations to fully utilize SharePoint to address their business objectives, please visit AvePoint’s booth – 1322 – on the expo floor at EMC World for product demonstrations and more information.
