

AvePoint and MT AG Forge Strategic Partnership

New agreement expands the delivery of AvePoint's SharePoint infrastructure management solutions and MT AG's premier SharePoint consulting services throughout Western Europe

Munich, Germany — June 10, 2010 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft SharePoint, today announced a partnership agreement with MT AG, Germany's premiere consulting firm for comprehensive IT services, across all phases of the hardware/software lifecycle for both large enterprises and small-and-medium sized businesses. As a result of the partnership, MT AG will serve as a referral partner of AvePoint solutions, and both companies will collaborate extensively to integrate their complementary product offerings and services for customers throughout Western Europe.

"We are very excited to partner with MT AG", said Sarju Raja, AvePoint's Director of EMEA Operations. "MT AG is an outstanding consultancy with a highly dedicated and knowledgeable group devoted to Microsoft SharePoint Products and Technologies, and we are thrilled for the opportunity to partner with such a market leader. Throughout Western Europe organizations are turning to SharePoint to break down enterprise-wide barriers and usher in true collaboration, and the infrastructure management solutions AvePoint provides enables them to take full advantage of the platform. Through this partnership, we now have a dedicated partner with a comprehensive understanding of SharePoint best practices as well as AvePoint's latest technologies."

AvePoint's award-winning DocAve Software Platform is a comprehensive infrastructure management and protection solution for Microsoft SharePoint Products and Technologies. With a unified, browser-based user interface and a fully distributed architecture, DocAve offers more than 25 independently deployable modules for SharePoint data protection, administration, compliance, migration, reporting, content lifecycle management, and storage optimization.

MT AG is a German-based IT consultancy that creates flexible, adaptable business processes to help optimize companies' business value. With proven expertise in Microsoft SharePoint Products and Technologies as well as technology from Oracle, SAP, IBM, and major open source systems, MT AG delivers customized IT solutions to create well-functioning, sustainable, and reliable system architectures for both large and small-to-midsize businesses.

"AvePoint's industry leading SharePoint infrastructure management solutions address even the most demanding customers' needs and match perfectly with MT AG's key strategy of 'enabling the adaptive enterprise'", said Andreas Cürten, Director, Microsoft Solutions at MT AG. "The DocAve Software Platform is the ideal complement to our portfolio, as it provides us with flexible end-to-end solutions for the management and operation of SharePoint infrastructures of any size. AvePoint is a valuable partner – offering cutting-edge technology and extremely devoted people – and MT AG is looking forward to forming a strong alliance with the company. AvePoint's leading expertise in SharePoint infrastructure management and MT AG's focus on creating best-in-class SharePoint solutions will enable our customers in Western Europe to succeed in an increasingly competitive business environment."
