

AvePoint the Platinum Sponsor of Microsoft's Business Value Launch 2010 in Singapore

AvePoint's support of the event highlights the company's continued commitment to empowering the growing Australasian SharePoint community

Republic of Singapore — May 26, 2010 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft SharePoint, today announced that it is the Platinum Sponsor of Microsoft's Business Value Launch 2010, being held today at the Resorts World Convention Center in Sentosa, Singapore. AvePoint's premiere sponsorship of the event serves as another testament to the company's commitment to help Singapore's SharePoint community take full advantage of platform for success. The event, organized by Microsoft, will provide attendees with insight and best practice guidance for their recently released Office 2010, Microsoft SharePoint Server 2010, SQL Server 2008 R2, and Visual Studio 2010 products.

"We are honored to be the Platinum Sponsor at Microsoft's Business Value Launch 2010 in Singapore", said Dino Cavestany, AvePoint's Singapore Country Manager. "Organizations throughout Australasia are quickly recognizing how Microsoft SharePoint Products and Technologies can help them organize, optimize, and streamline their business processes, and AvePoint is committed to ensuring these companies have the tools and expertise necessary to successfully protect, manage, optimize, and integrate their SharePoint deployments."

In addition to AvePoint's sponsorship of the event, Dr. Tianyi (TJ) Jiang, AvePoint's Co-founder and Co-Chief Executive Officer, will present a session during Microsoft Business Value Launch 2010 in Singapore, entitled: "Intelligent Information Management: Using Microsoft SharePoint 2010". During the session, Dr. Jiang will discuss the strategies and tools available to organizations seeking to bolster their data protection, administration, reporting, replication, storage management, and compliance capabilities in order to unlock the full potential of the SharePoint platform.
