

AvePoint and Project Leadership Associates Forge Partnership to Offer Enterprise-Class Governance Solutions for Microsoft SharePoint

New agreement expands the delivery of AvePoint's SharePoint governance and infrastructure management solutions and Project Leadership's business solutions throughout North America

Jersey City, NJ — November 16, 2011 — AvePoint, a proven leader in governance and infrastructure management solutions for Microsoft SharePoint, today announced a partnership agreement with Project Leadership Associates, a provider of high value business solutions and services headquartered in Chicago. Both AvePoint and Project Leadership will work together to integrate and deliver their complementary solutions and services for customers throughout North America.

“With more than two decades of combined experience between the two companies, AvePoint’s SharePoint expertise and Project Leadership’s passion for delivering effective business solutions make a powerful alliance,” said Nathan Trenzinger, AvePoint Vice President of North America & EMEA Alliances. “As SharePoint continues to be an integral part of daily operations for an increasing number of organizations across North America, AvePoint and Project Leadership will work in tandem to deliver solutions that help customers truly maximize the business value of their SharePoint investments.”

AvePoint's award-winning DocAve Software Platform is a comprehensive, fully integrated management platform for SharePoint governance. With a unified, browser-based user interface and a fully distributed architecture, DocAve offers more than 30 independently deployable modules for SharePoint data protection, administration, replication, migration, archiving, deployment management, reporting, storage optimization, and content lifecycle management.

Since 1998, Project Leadership has delivered a complimentary suite of high-value business solutions and services that allows its clients to effectively focus on meeting their challenges and attaining success. These business technology solutions empower small, mid-market, and enterprise organizations with services across four core solution groups: strategy and execution, business operations, applications, and infrastructure.

“Businesses utilizing SharePoint have a great need to effectively deploy, monitor, and enforce SharePoint governance policies,” said Gaurav Issar, Executive Vice President at Project Leadership Associates. “Working with AvePoint and utilizing its wide range of solutions, Project Leadership will be able to ensure our clients’ SharePoint needs are met and their deployments are optimized to help achieve their business goals.”
