

AvePoint Named a Finalist for the 2010 Red Herring 100 North America Award

Award recognizes North America's most exceptional private technology companies

Jersey City, NJ — June 21, 2010 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft SharePoint, today announced that it has been selected as a finalist for Red Herring's North America 100 Award, a prestigious list honoring the year's most innovative and successful private technology ventures from the North American business region. The Top 100 winners will be announced during a special awards ceremony on June 24 at the Red Herring North America Conference in San Diego, California.

"We are honored to be named a finalist for this year's Red Herring North America 100 Award", said Dr. Tianyi (TJ) Jiang, AvePoint's Co-Founder and Co-Chief Executive Officer. "Ever since we first opened our doors in 2001, it has been our mission to deliver high-quality infrastructure management solutions and services to companies looking to utilize Microsoft SharePoint Products and Technologies as their information management and collaboration platform. Being recognized as a finalist for this award reinforces our belief that innovative products fortified by best-in-class customer service are the key drivers of success."

The Global Leader in SharePoint Infrastructure Management Technologies

Finalists for the 2010 edition of the Red Herring 100 North America award are selected by the Red Herring editorial team based upon their technological innovation, management strength, market size, investor record, customer acquisition, and financial health. During the several months leading up to the announcement, hundreds of companies in the telecommunications, security, Web 2.0, software, hardware, biotech, and clean tech industries were nominated.

"This year was especially difficult", said Alex Vieux, Publisher and Chief Executive Officer of Red Herring. "Despite the global economic situation, there were many great companies producing really innovative and amazing products that we had a difficult time narrowing the pool and selecting the finalists. AvePoint shows great promise and therefore deserves to be among the Finalists. Now we're faced with the difficult task of selecting the Top 100 winners of the Red Herring North America award. We know that this year's crop will grow into some amazing companies that are sure to go far."

AvePoint has been the premier SharePoint infrastructure management solution provider since SharePoint's debut in 2001, regularly delivering pioneering and innovating tools that empower organizations to protect, manage, optimize, integrate, and govern their SharePoint deployments. Driven by the world's largest SharePoint-exclusive research & development team, AvePoint's award-winning DocAve Software Platform empowers EPG, SMB, and government organizations to utilize Microsoft SharePoint Products and Technologies for enhanced business productivity, collaboration, and enterprise content management initiatives.
