

AvePoint and non-linear creations Forge Partnership to Offer Enterprise-Class Governance Solutions for Microsoft SharePoint

New agreement expands the delivery of AvePoint's SharePoint governance and infrastructure management solutions as well as non-linear creations' services throughout Canada

Jersey City, NJ — December 7, 2011 — AvePoint, the leader in governance and infrastructure management solutions for Microsoft SharePoint, today announced a partnership agreement with non-linear creations inc. (NLC), a leading internet consulting firm based in Canada. NLC will serve as a value-added reseller of AvePoint technologies, and both companies will work together to integrate their complementary product offerings and services for customers throughout Canada.

“As SharePoint deployments continue to grow throughout Canada, organizations are looking to effectively simplify the deployment, monitoring, and enforcement of SharePoint governance policies,” said Nathan Trenzinger, AvePoint Vice President of North America & EMEA Alliances. “The combination of AvePoint’s solutions and decade of dedication to SharePoint with NLC’s experience delivering services and technologies will enable even more businesses throughout the country to maximize the business value of the platform.”

AvePoint's award-winning DocAve Software Platform is a comprehensive, fully integrated management platform for SharePoint governance. With a unified, browser-based user interface and a fully distributed architecture, DocAve offers more than 30 independently deployable modules for SharePoint data protection, administration, replication, migration, archiving, deployment management, reporting, storage optimization, and content lifecycle management.

Formed in 1995, NLC leverages the business benefits of internet technology to drive a strong return on investment for its clients. This focus on delivering results drives each of its areas of practice, including: enterprise and web content management; enterprise search and navigation; online strategy; search engine marketing; email marketing; application development and integration; site design and multimedia; and web analytics.

“Each day, more and more Canadian organizations are deploying and utilizing SharePoint to significantly increase collaboration and productivity across their enterprises,” said Randy Woods, President of NLC. “With access to DocAve’s wide variety of SharePoint solutions, non-linear creations will be able to ensure our clients’ deployments are fully protected and efficiently managed while specific business needs are fulfilled.”
