Melbourne, Australia — November 24, 2011 — [AvePoint](#), a proven leader in governance and infrastructure management solutions for Microsoft SharePoint, today announced it is a Silver Partner of Share, the SharePoint Conference for Business Users, to be held from November 28-30 at the Novotel Manly Pacific in Sydney, Australia. The partnership underscores AvePoint's ongoing commitment to the SharePoint community in Australia, where it helps many private and public organisations achieve business success with their SharePoint deployments. The world's only SharePoint Conference designed to help business users address business issues, Share will provide a platform for AvePoint to deliver expertise and showcase enterprise-class solutions for SharePoint governance and infrastructure management developed over its decade of complete devotion to SharePoint technologies since the platform's inception in 2001.

"We are delighted to partner with Share Conference again this year to connect and share proven practices with Australia's SharePoint business users," said Garth Luke, General Manager of AvePoint Australia and Vice President of Sales. "Helping more than 8,000 organisations worldwide maximize SharePoint's business value over the past decade, AvePoint has developed a deep understanding of business users' ever-evolving needs as well as what is required to deploy, monitor, and enforce effective SharePoint governance policies across the enterprise."

The session will teach the steps for planning and implementing SharePoint as a platform that will support a dynamic enterprise, as well as allow Luke to share insights, best practices, and lessons learned from his experience travelling around the world to help businesses achieve SharePoint success.

"We are delighted that AvePoint is sponsoring the Share Conference for the second year in a row," said Jamie Carroll, Alliances Manager at The Eventful Group, organisers of Share. "With its vast experience helping customers throughout Australia and across the globe with SharePoint governance and infrastructure management, AvePoint will add valuable insight that will contribute to making the event a success."
